Ognomy, Inc. (referred to as “Ognomy”, “us”, “we”, and “our”) respect your privacy and are committed to protecting it through our compliance with this Privacy Policy (the “Policy”). Our proprietary technology platform provides a complete sleep apnea care solution by connecting patients and healthcare professionals to provide testing, diagnoses, and treatment for sleep apnea from the comfort of home (the “Platform”). You can access our Platform by visiting the Ognomy website located at <https://www.ognomy.com/> (the “Website”) or by purchasing, downloading, installing, registering with, accessing, or using the Ognomy mobile application available in the app stores as “Ognomy – The Sleep Apnea App” (the “App”) (the Website, App, and our online Platform services are together, the “Services”). This Policy describes the types of information we may collect from you, or that you may provide, when you use the Services, and our practices for collecting, using, maintaining, protecting, and disclosing such information.

Please read this Policy carefully to understand our policies and practices regarding your information and how we will treat it. If you do not agree with our policies and practices, or feel uncomfortable with the ways we use information in order to deliver our Services, please do not use the Services.

This Policy may change from time to time (see **Changes to Our Privacy Policy**). Your continued use of the Services after we make changes is deemed to be acceptance of those changes, so please check the Policy periodically for updates.

Scope and Application

This Policy applies to information we collect:

- On the Website and/or App; and
- In email, text, and other electronic messages between you and the Website or sent through or in connection with the App.

This Policy DOES NOT apply to information that:

- We collect offline or through any other means, including on any other website or app operated by Ognomy or any third party (including our affiliates and subsidiaries); or
- You provide to, or is collected by, any third party (including our affiliates and subsidiaries), including through any application or content (including advertising) that may link to or be accessible from or on the Website or App.

Our other websites and apps, and these other third parties, may have their own privacy policies, which we encourage you to read before providing information on or through them.

Protected Health Information

When you register, or inquire about registering, for use of the Services, we may keep a record of certain health information that you provide to us or to your healthcare provider as well as any medical information that independently contracted healthcare providers provide to you via our Platform (such as information on and related to your medical history, diagnoses, treatments, current medical condition, and use of prescription medications). Your personal information in our possession may be protected health information ("PHI") protected by the Health Insurance Portability and Accountability Act of 1996, as amended and supplemented by the Health Information Technology for Economic and Clinical Health Act (Pub. Ognomy is independent from all healthcare professionals who may be providing telemedicine services to you through the Platform. We do not engage in the practice of medicine or provide any other health services. All patients who utilize the Platform receive services from independently contracted licensed healthcare professionals (the "Providers"). Ognomy acts as a Business Associate under HIPAA, by providing the Platform and other services on behalf of a covered entity (i.e., the Provider), pursuant to a written agreement called a Business Associate Agreement.

In addition to this Policy, the HIPAA Notices of Privacy Practices of your healthcare providers will apply to your PHI. This Policy supplements such Notices of Privacy Practices and any other privacy related disclosures we may provide from time to time (including during your enrollment or management of your account) and is not intended to override them.
